

COMMAND BLOCKS VS FUNCTIONS

(from mine craft)

So EARLIER tday I overheard About that microsoft has added “functions” to the game and some ppl are Saying me that they...are “more efficient” or “more powerful” than CMD blocks but I have decided they are not and HAVE PROOF READ BELOW:

1. “Functions” are mods If you think about it enough...they MODify the world... key word”MOD” (think about it)
2. Functons are a a fad. IN COMPARISON: Cmd Blocks are hear To stay.

1. WHY LEARN A ENTIRELY new computer Langwich to Do mine craft. When cmd blocks can do every thing already better

4. Funtons UNABLE TO do uncompressed Logic systems—REDSTONE CAN EASELY

9 OUT OF 10
DENTISTS RECOMMEND
CMD BLOCK

5: CMD Blocks Were FIRST When notch CREATED the GAME

6. it is IMPOSSIBLE to make a funton run All of the time. Yuo must run it Manually from chat EACH time you want it to run (which is alot usually on My maps)

IN CONCLUSION! COMmdD blocks are BETTER thjan functins ALLWAYS OF THE TIME. Ppl only use functions be- caus... they do don't know how to use command block's. THANKS FOR READING!!!!

Cons

- Requires assembly
- May not be as durable as a couch
- Mattresses are rather thin

LIKE if you think Microsoft should remove functions from the
